

# MANOIR

PREMIUM ROOFING SHINGLES

*Old-World Charm, New-World Performance.*

## GIVE YOUR ROOF THE ROYAL TREATMENT

MANOIR is inspired by the breathtaking beauty of Europe's spectacular castles that have stood the test of time. This new line of shingles gives roofs a sophisticated and unique design, while offering the ultimate protection against the elements.

## SHOWING OUR TRUE COLOURS

MANOIR shingles are the first to come out of BP's **Chroma™ Colour Lab**, a place where our master colourists combine their expertise with the latest

technological advances in granule application to create sophisticated yet natural blends that complement today's upscale exterior finishes.

## A SOPHISTICATED AND UNIQUE DESIGN

MANOIR recreates the sophisticated look of natural stone and slate roofs of yesteryear, without the weight and maintenance drawbacks. Above all, it combines beauty and performance to meet the highest expectations in appearance and durability.

In creating the 5 dream colours at the heart of our MANOIR collection, our designers were inspired by the most beautiful castles from Scotland to Bavaria. These elegant and timeless shingles are perfectly suited to all types of architecture, siding and landscaping.

**VERSAILLES**

**BALMORAL**

**BAVARIA**

**VIENNA**

**CARCASSONNE**

**CROWN RIDGE hip & ridge** were created to match our premium MANOIR shingles beautifully.

To help visualize these shingles on your house and select the style and colours that best complement it, check out our free, simple-to-use visualizer tool at [bpcan.com/visualizer](http://bpcan.com/visualizer).

### The **HURRICANE Band**®

The dotted **HURRICANE Band**® is the primary wind protection component. Placed at the edge of the exposure ensuring the shingle remains in place over its lifetime

### The **Weather-Tite**® Band

The solid **WEATHER-TITE**® Band is a second sealant strip which prevents water infiltration caused by wind-driven rain in addition to providing another level of protection against wind blow-offs.

## THE ULTIMATE PROTECTION AGAINST THE ELEMENTS

Just like natural stone, MANOIR shingles were made to last and handle the roughest weather. MANOIR shingles feature new **Weather-Tite® Plus Technology**, an improved version of BP's patented wind resistance technology. The **Weather-Tite® Band** protects from wind-driven rain while the new **Hurricane Band®** will provide superior protection from blow-offs. MANOIR shingles come with a standard wind warranty

of 220 km/h, which can typically be found in category 4 hurricanes. MANOIR shingles also feature an extensive dual-layer construction, and their **SeBS polymer-modified asphalt formulation** provides added flexibility, long-term granule retention, and meet the requirements of **Class 3** according to the **Standard FM 4473** for the resistance to the **impact** that it could undergo.

**IMPACT RESISTANCE**  
CLASS 3 • FM 4473 STANDARD

**220 KM/H**  
STANDARD WIND WARRANTY

**SeBS POLYMER-MODIFIED ASPHALT**  
SUPERIOR FLEXIBILITY
